HEALTHCARE INNOVATION SUMMIT 2022

23/6/2022 - 24/6/2022

HEALTHCARE INNOVATION

- The event will be of European format mainly for the professional public with the participation of a number of Czech and international experts, speakers, large and small companies (top management, senior and middle management, CEOs and founders), ministries, associations, unions, chambers of commerce, investment groups, policy makers, scientific and research institutes, universities, hospitals, clinics from both the public and private spheres, a smaller part will consist of startups, schools, the non-profit sector, the media and journalists.
- The event will focus on innovation, technology development, transformation, issues and the future of the entire healthcare system, as well as on business, networking, interconnection and education.
- The targeting will be for both the **B2B and B2C segments**
- There will be a range of topics from different areas and sectors of health, medicine, including scientific knowledge, groundbreaking discoveries, including the use of **digital and breakthrough technologies**, services, materials, devices, accessories, etc.
- The **Healthcare European Disrupt Challenge** in various areas will take place throughout the event.
- The main conference will include panel discussions and keynote presentations. There will also be smaller expos, interactive stands, open and closed workshops (MasterClass, hackathon, business reception for VIP partners or new clients. Educational workshops for the public and schools). A full service within the gastronomy, promotion, etc. will be provided for the event partners.
- There will be strong media involvement, both through large media and professional media and smaller periodicals.
