Microsoft Azure Ecosystem

Devices	Device Connectivity	Storage	Analytics	Presentation & Action
	Event Hubs	SQL Database	Machine Learning	App Service
	Service Bus	Table/Blob Storage	Stream Analytics	Power BI
	External Data Sources	DocumentDB	HDInsight	Notification Hubs
		External Data Sources	Data Factory	Mobile Services
				BizTalk Services

How we can help customers?

Presale/pilot

- understand business needs
- calculate TCO
- recommend HW
- prototype/PoC

Delivery

- deliver cloud services via CSP
- MS data platform integration
- custom development web/mobile

Support

- helpdesk up to 24x7
- incident management based on Jira

How we can help HW vendors?

Support your business

- resell your HW
- feedback
- bring new ideas based on customer needs

Focus on HW

- develop standardized HW
- easy to implement
- do not customize

Customer delivery

- HW vs end-to-end solution
- be part of IQRF ecosystem

I-motion – smart office

"We are strong, when others strength has run out."
