

Myjordomus

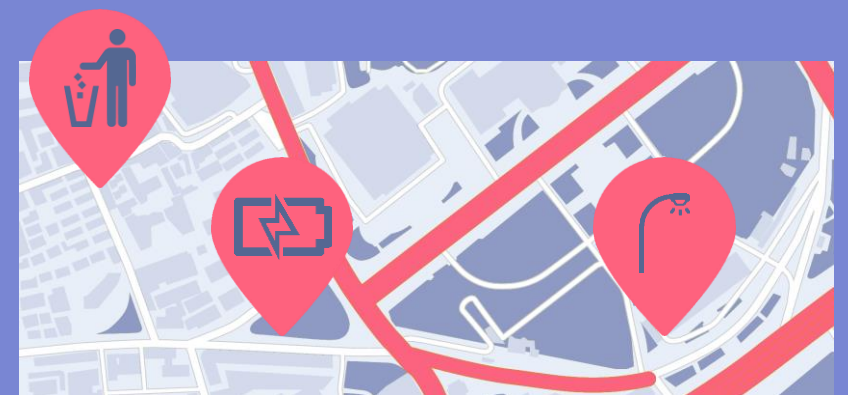

IoT Integration Platform

Vladislav Korecký
Head Software Architect

MyMight

Myjordomus

helps technologies to understand each other

As secure as a bank

Myjordomus utilizes encrypted communication and **the same level of security that banks** have.

If you trust your internet banking service, you can also trust Myjordomus.

Freedom

Learn Myjordomus new features and technologies

by **Open API**

<https://api.myjordomus.com>

Cloud without compromise

Use Myjordomus without any limits or configurations.

Just take a picture of the QR code.

From anywhere in the world.

Any technology

Use any technology and communication protocol.

Myjordomus can integrate any technology.

Just by adding new **connector**.

Complete solution

Myjordomus is not only application for control IoT but also contains **full pack of background applications.**

Geographic information system

Business Intelligence

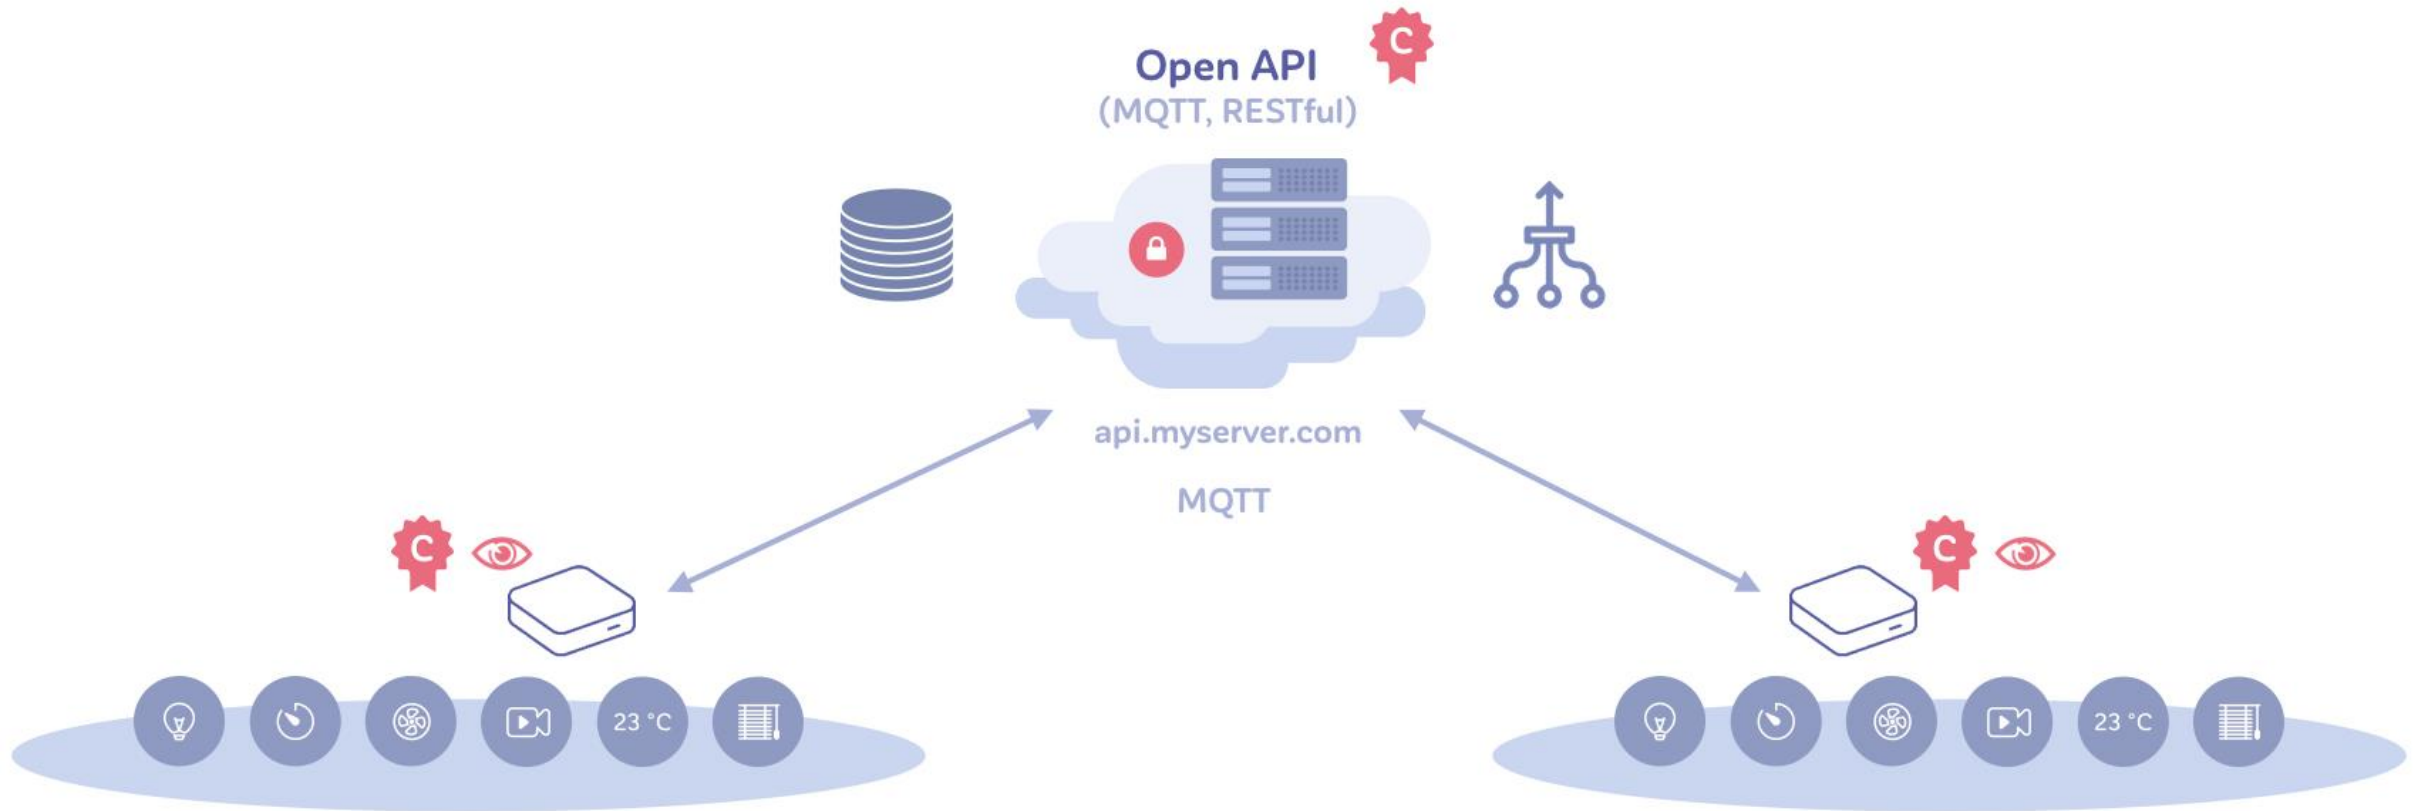

Enterprise Resource Planning

ETL

Machine Learning
